

Kevin J. Walsh

Department of Space Studies, Southwest Research Institute, Boulder CO 80302 USA
Voice: (720) 208-7205 Fax: (303) 546-9687
kwalsh@boulder.swri.edu <http://www.boulder.swri.edu/~kwalsh>

Professional Preparation

University of Notre Dame	Physics and Computing	B.S. 2000
University of Maryland	Astronomy	Ph.D. 2006
University of Maryland	Postdoctoral Res. Associate	2007
Observatoire de la Côte d'Azur	Poincaré Fellow	2008–2009
Southwest Research Institute	Research Scientist	2010–

Grants and Awards

- **NASA PG&G** (PI) 2013-2016 \$214,000
“Preserving Shape and Spin Information in Catastrophic Asteroid Disruptions”
- **XSEDE Supercomputer** (PI) 1.5 million hours for 2013
“Modeling the Formation of Pluto’s Small Satellites”

Space Mission Involvement

Walsh is a collaborator with NASA's **OSIRIS-REx** asteroid sample return mission with a paid position as a deputy lead of the Regolith Development Working Group. This Working Group is tasked with compiling all information to constrain the nature and geologic history of the target asteroid Bennu, including the maps of sampleability to help select sample sites.

Recent Invited Talks

1. July 21, 2014 “Terrestrial Planet Formation and the Mixing of Planetesimal Populations”, Characterizing Planetary Systems Across the HR Diagram, Cambridge England
2. June 4, 2014 “Identification and properties of asteroid families”, Workshop on “Internal structure of carbonaceous chondrites parent bodies and their link with primitive asteroids”, Villefranche sur Mer, France
3. May 27, 2014 “Formation of the terrestrial planets with LIPAD”, Workshop on ”Accretion and early differentiation of the terrestrial planets”, Nice, France
4. Nov 8, 2013 “The origin of near-Earth asteroids” Kavli Frontiers of Science hosted by the National Academy of Science, Irvine, California.
5. Dec 7, 2012 “Terrestrial planet formation from a truncated disk – The Grand Tack” at AGU Fall meeting, San Francisco.
6. Aug 28, 2012 “Shaping of the inner solar system by the gas-driven migration of Jupiter” at IAU General Assembly XXVIII, Beijing, China.
7. May 28, 2012 “Shaping of the inner solar system by the gas-driven migration of Jupiter” at Planetary Origins and Frontiers of Exploration, Weizmann Institute, Israel
8. May 18, 2012 “Depletion and excitation of the asteroid belt by migrating planets” at Asteroids Comets and Meteors, Niigata, Japan
9. Nov 7, 2011 “Depletion and excitation of the asteroid belt by migrating planets” at Formation of the First Solids in the Solar System Workshop, Kauai

Recent Seminars/Colloquium

1. April 15, 2014 Kleigel Lecture in Planetary Sciences, Caltech
2. Feb 18, 2014 Whole Earth Seminar, UCSC
3. Feb 7, 2014 Colloquium, Florida Institute of Technology
4. Dec 5, 2013 Planetary Science Seminar, Brown University
5. Oct 31, 2013 Astronomy Seminar, Aristotle University of Thessaloniki

6. April 4, 2013 Colloquium, LPL, University of Arizona
7. Sep 25, 2012 Astrophysics Seminar, University of Notre Dame
8. Aug 13, 2012 Astronomy Seminar, ASIAA (Taipei)
9. Nov 1, 2012 Astrobiology Seminar, University of Washington
10. Jan 18, 2012 Astrobiology Seminar, University of Colorado
11. Oct 25, 2011 EAPS Colloquium, MIT
12. Summer 2009 Temps & Espace Seminar, IMCCE Paris
13. Spring 2009 Astronomy Seminar, DAMTP, Cambridge

Teaching Experience

- 2012 Adjunct Professor, Astro 3300, APS Dept., University of Colorado at Boulder
 2007 Adjunct Professor, Astro 330, Dept. of Astronomy, University of Maryland
 2001–2002 Instructor, Astronomy 111, Dept. of Astronomy, University of Maryland

Observing Experience

- IRTF Hawaii: 5 nights 2013A (PI), spectra of primitive Main Belt Asteroids.
 VLT UT3 Chile: 8 hrs of time in Spring 2009 (PI) & 2010 (co-I). 8–18 μ m imaging.
 KPNO Kitt Peak, AZ: 25 nights (PI), Asteroid lightcurves (4m & 2.1m).
 SPM 1.5m San Pedro Martir, Mexico: 4 nights (PI), Deep Impact support.
 VATT 2m Mt. Graham AZ: 5 nights (student) Jovian satellite lightcurves.

Honors

- 2014 Kavli Fellow (Kavli Frontiers of Science 2013)
 2012 Asteroid 7987 renamed Walshkevin
 2008 Walsh et al. 2008 one of *Astronomy* magazine's top 10 stories for 2008
 2008–2009 Poincaré Postdoctoral Fellowship, Observatoire de la Côte d'Azur
 2006 Dean's Dissertation Fellowship, University of Maryland Graduate School
 2000–2002 Center for Teaching Excellence Distinguished Teaching Assistant 2001 & 2002

Professional Service

- NASA panel member 2012, 2013; External reviewer, 2011–2014
- Member International Space Science Institute “Granular Surfaces of Asteroids” 2010–2012.
- Referee *Nature* (2 papers), *ApJ Letters* (3 papers), *Astronomy & Astrophysics* (3 papers), *Icarus* (10 papers), *Astronomical Journal* (1 paper), *Earth Moon and Planetary Science* (2 paper), *Celestial Mechanics & Dynamical Astronomy* (1 paper)

Department/Volunteer Service/Other Activities

- Interviewed as part of BBC’s special on Planet Formation (2013)
- “Distinctive Voices” talk at the National Academy of Science, Irvine, CA (Nov 7, 2013)
- Interviewed as part of Discovery Channel “How the Universe is Made” series (2013)
- Interviewed as part of BBC’s comet ISON special (2013)
- Public talk at Telluride Public Library (Mar 30, 2012)
- Speaker at Fairmont Elementary Math Club (Jan 13, 2012)
- Completed 5 km “Defi de Monte Cristo” swim, Marseilles, France (2010)
- Completed 167 km “Etape du Tour” bike race, Provence, France (2009)
- 3rd in the World Ultimate Club Championships with Boulder/Denver Ultimate Frisbee team Johnny Encore (2014)
- Staff advisor and coach for University of Maryland Ultimate Frisbee team (2001–2006).

Publication List Summary: Walsh has published 28 papers in refereed journals, and was first author on 12. These appeared in (not counting those under review or in press):

Icarus: 11

Nature: 4 (1 was a *News & Views*)

Astrophysical Journal: 4 (2 were letters)

Annual Review of Earth and Planetary Science: 2

Science, Planetary and Space Science, Earth Moon and Planets, Advanced Science Letters, Astronomy and Astrophysics, Meteoritics and Planetary Science, MNRAS: 1

According to Google Scholar, there have been 1028 citations to his work (calculated on 19-March 2014). The calculated i10-index is 18 and the h-index is 15.
